2016 Saginaw Fire Camp

Each June, the Saginaw Professional Firefighters Association (SPFFA), in coordination with the city, conducts a week-long day camp for approximately 30 students from the Saginaw area.

The goals of the fire camp program are to teach students the importance of teamwork and physical fitness, as well as to build self confidence and initiative to develop solutions to complex problems. The students engage in fire and EMS related activities and scenarios utilizing the same discipline, training, skills, and equipment used by firefighters today.

The fire camp program is made possible by the gracious donation of effort and off-duty time of the SPFFA members. All supervision, activities, and training sessions are conducted by members of the SPFFA. All instructors are state-certified career firefighter / paramedics who offer their expertise in various disciplines of the fire service.

To be eligible a student must be 10-12 years old, must have successfully completed the 4th grade, and must be on the A or the A / B honor roll.
